

## Additional terms and conditions for TRF loaner/rental systems

In support of the TRF training courses, BEE Medic is committed to working out solutions for the provision of equipment worldwide. Due to differing international conditions, we have a 'three territory approach. The territory indicates whether we can provide loan or rental systems. In some countries we have to consider individual solutions and may only be able to offer the purchase of the system.

The following table shows the current possibilities for participating in a TRF training program and explains the conditions for the associated territory:

Territory A <sup>1</sup>	Territory B <sup>2</sup>	Territory C <sup>3</sup>
Free delivery of loaner systems	Delivery of rental systems at a cost is possible, the freight charges need to be covered. In some countries a monthly fee must be paid and/or a deposit will be requested. Before ordering or shipping, the conditions will be agreed mutually between BEE Medic and the course participant.	Rental and loaner systems are not available in this country. The TRF participant must purchase the system before the course starts. Deliveries will sometimes be subject to import duties or other fees. Before ordering or shipping, the conditions will be agreed mutually between BEE Medic and the course participant. In rare cases, we cannot supply the country at all.

<sup>1</sup> Territory A includes the following countries: Austria, Canada, Germany, Greenland, Jersey, Jamaica, Puerto Rico, USA, Venezuela

<sup>2</sup> Territory B includes the following countries: Australia, Belgium, Bulgaria, Croatia, Czech Republic, Denmark, France, Great Britain, Hungary, Italy, Netherlands, Northern Ireland, Poland, Portugal, Romania, Slovakia, Slovenia, Sweden, Switzerland
